

THE FUTURE OF WATER TREATMENT

**ELYSATOR**

*** VALUE ADDED * CHEMICAL FREE * GREEN BUSINESS ***

*** CLOSED LOOPS * COOLING TOWERS * BOILER SYSTEMS * HVAC ***

- ◇ Reduce Shut Downs & Overall Facility Maintenance Expense
- ◇ Reduce Mineral & Corrosion Build Up in Cooling Tower Plates & Piping System
- ◇ "Improved Heat Transfer" Reducing Heating Expense & Greenhouse Gases
- ◇ Reduce Water Consumption for Steam & Hot Water Boilers with Minimal Blowdowns
- ◇ Reduced Hazmat Footprint for Storage & Handling of Chemicals
- ◇ Reduced Environmental Exposure

*The Elysator has proven success, by eliminating all softeners and chemical products saving money in the reduction of corrosion, chloride Ion (salt) while balancing PH and lowering conductivity. Fifteen of these Elysator's are used on two Long Beach CA Naval Ships, for all their cold and hot water systems aboard ship "Chemical Free". Also used in a Biodiesel Facility in SoCal very successfully. These systems are warranted with a **Three (3) Year Money back guarantee from the Manufacturer.***
